Education

University of Maryland - College Park

► B. S. Computer Science and B. A. Chinese

Graduation Date: May 2021

GPA: 3.6/4.0

Experience

MITRE Corporation | **Software Engineering Intern**

May 2018 - August 2018

- Supported Space Situational Awareness applications and specification creation for government satellite ground systems
- Developed a front-end web application to visualize satellite data
- Restructured existing code-base to adhere to a company-made framework

University of Maryland | **CMSC131 Undergraduate Teaching Assistant**

August 2018 - Present

- Leading discussions and teaching fundamentals of Java and programming to a class of 30+ students
- Assisting students during office hours by guiding them through projects and answering questions

Mariner Finance | **Software Engineering Intern**

June 2016 - August 2016

- Created a web app using ASP.net MVC 5 to keep track of conferences utilizing SQL Query commands
- Collaborated with a team of 5 software developers and designers to redesign the company's websites

Projects

UMD XR Club | **Web Design and Development**

September 2017 - Present

- Leading front-end redesign of website for newly formed XR (AR + VR) Club. Used InVision to draft a preliminary skeleton and now using HTML/CSS/JS and Bootstrap to create the site
- Developing back-end web apps with Django and MySQL

Redfish | **Game Development**

September 2017 - Present

- Developing a tournament-style game in Unity 2D with JavaScript and C#. Currently working on integrating multiplayer gameplay
- Created concept art + character design and animations

STEMpower Girls | **Full Stack Development and Programming Mentor**

August 2016 - Present

- Developed and deployed the website stempowergirls.org. Maintenance done using AWS tools
- Taught programming lessons for the nonprofit's middle school program in Baltimore City

Squirrel Speed | **Game Development**

December 2016 - March 2017

- Programmed scripts, created assets, and developed animations for arcade-style space invader game in C# Unity 2D for Maryland FBLA Competition
- Won 3rd place in the state and ranked nationally

Skills

- Proficient in Java, HTML/CSS/JavaScript, SASS, AngularJS, Django, C#, SQL, MongoDB, Python
- Familiar with C++, Ruby, PHP, Node.js
- Tools: AWS, Git, InVision, Adobe Photoshop/Illustrator
- Foreign Languages: Russian, Hebrew, English, Spanish, currently learning Chinese
